## Third Quarterly Report

## 2014

## **CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

**GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.**

**The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors. Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.**

## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **FINANCIAL REVIEW**

#### **Revenue**

The Group's revenue increased from approximately HK\$50.5 million for the nine months ended 30 September 2013 to approximately HK\$67.0 million for the nine months ended 30 September 2014, representing a growth of approximately 32.7%. Such increase was mainly due to the increase in concrete demolition services provided by the Group as a result of the overall development in the construction industry in Hong Kong.

#### **Cost of Sales**

The Group's cost of sales increased from approximately HK\$28.9 million for the nine months ended 30 September 2013 to approximately HK\$42.5 million for the nine months ended 30 September 2014, representing an increase of approximately 47.2%. Such increase was mainly attributable to the increases in the Group's subcontracting charges, cost of raw materials and consumables, staff costs, repair and maintenance cost, depreciation and transportation expenses.

#### **Gross Profit**

The Group's gross profit amounted to approximately HK\$21.7 million and HK\$24.6 million for the nine months ended 30 September 2013 and 2014 respectively, representing a growth of approximately 13.4%, as a result of the increase in the Group's revenue as discussed above.

#### **Other Income and Net Gains**

The Group's other income and net gains amounted to approximately HK\$143,000 and HK\$775,000 for the nine months ended 30 September 2013 and 2014 respectively, representing an increase of approximately 442.0%, which was primarily due to the collection of debts which were previously deemed as uncollectable.

#### **Administrative and Other Operating Expenses**

The Group's administrative and other operating expenses amounted to approximately HK\$10.1 million and HK\$20.0 million for the nine months ended 30 September 2013 and 2014 respectively, representing an increase of approximately 98.2%. Such increase was primarily due to the listing expenses of approximately HK\$9.0 million incurred during the nine months ended 30 September 2014 (2013: nil).

#### **Finance Costs**

For the nine months ended 30 September 2013 and 2014, the Group's finance costs amounted to approximately HK\$272,000 and HK\$277,000 respectively, representing an increase of approximately 1.8%. Such increase was mainly due to the combined effect of (i) the reduction in the Group's interest expense on finance leases from approximately HK\$239,000 for the nine months ended 30 September 2013 to approximately HK\$149,000 for the nine months ended 30 September 2014 as a result of the maturity of and full settlement of certain finance lease facilities; and (ii) the increase in interest on bank borrowings from approximately HK\$25,000 for the nine months ended 30 September 2013 to approximately HK\$123,000 for the nine months ended 30 September 2014 mainly because of drawdowns of bank loans in late 2013 for the Group's general working capital purposes.

## **Income Tax Expenses**

For the nine months ended 30 September 2013 and 2014, the Group's income tax expenses amounted to approximately HK\$2.5 million and HK\$2.6 million respectively, representing an increase of approximately 1.8%. Such increase was primarily due to the combined effect of:

- (i) the recognition of deferred tax liabilities not previously recognised in prior years of approximately HK\$0.6 million in the nine months ended 30 September 2013 and nil in the nine months ended 30 September 2014; and
- (ii) the listing expenses of approximately HK\$9.0 million incurred in the nine months ended 30 September 2014 (2013: nil) which were not deductible for tax purposes.

## **Profit for the Period**

As a result of the foregoing and in particular the increase in revenue and increase in listing expenses as discussed above, the Group's profit and total comprehensive income attributable to owners of the Company decreased from approximately HK\$8.9 million for the nine months ended 30 September 2013 to approximately HK\$2.5 million for the nine months ended 30 September 2014, representing a decrease of approximately 71.8%. Excluding the listing expenses of approximately HK\$9.0 million, the net profit of the Group would have been approximately HK\$11.5 million for the nine months ended 30 September 2014, representing a growth of approximately 29.2% as compared to the same period in 2013.

## **BUSINESS REVIEW AND OUTLOOK**

The Group is principally engaged in the provision of concrete demolition services in Hong Kong as a subcontractor. The Group's concrete demolition services mainly involve the removal of pieces or sections of concrete from concrete structures by applying a variety of methods, such as core drilling, sawing, bursting and crushing, depending on the situation. The Group's services are required in many different situations including, among others, addition and alteration works and redevelopment projects in buildings, roads, tunnels and underground facilities. The Group undertakes jobs of considerably different scales, ranging from a core drilling job (i.e. the making of circular cuts in a concrete structure) which can be completed within a day to the removal of multiple sections of concrete from reinforced concrete structures in construction or redevelopment sites.

The Company's shares were successfully listed on the GEM on 15 August 2014 by way of placing (the "Placing"). 155,000,000 placing shares (comprising 108,500,000 new shares offered by the Company and 46,500,000 sale shares offered by the selling shareholder) were issued at HK\$0.4 per share pursuant to the Placing. The net proceeds from the Placing were about HK\$31.2 million after deduction of listing-related expenses. As at the date of this report, the Group have utilised approximately HK\$2.0 million mainly to enhance machinery and equipment. As at 30 September 2014, the unused proceeds were deposited in licensed banks in Hong Kong.

The Directors consider that the continued increase in major infrastructure and construction projects in Hong Kong had led to a general increase in the demand for concrete demolition services, resulting in more business opportunities being presented to and secured by the Group and thus the increase in the Group's revenue for the nine months ended 30 September 2014 as compared to the same period in 2013.

Looking forward, the Group will continue to pursue the following key business strategies: (i) further enhancing the Group’s machinery and equipment by acquiring additional concrete demolition machinery and equipment so as to enhance the Group’s technical ability and to strengthen the Group’s capability to cater for different needs and requirements of different customers; (ii) further strengthening the Group’s manpower by recruiting more skilled workers and mechanics in order to cope with the Group’s business development and by arranging more training courses for the Group’s workers; and (iii) increasing the Group’s marketing efforts by placing additional advertisements and sponsoring more events in the construction and civil engineering industries in Hong Kong in order to further increase public awareness of the Group.
